SUMMARY

*Passionate Frontend Developer with a solid foundation in **HTML, CSS, JavaScript, and Bootstrap**, and hands-on experience building projects with **React.js**. Eager to contribute to a dynamic team by applying skills in responsive design, UI component development, and modern JavaScript frameworks to create impactful web solutions.*

WORK EXPERIENCE

E-Commerce Website

- Built a responsive e-commerce platform with **React.js** featuring complete product browsing, filtering
- Implemented **shopping cart functionality** with real-time calculations (quantity, subtotal, tax, shipping, and grand total)
- Developed **advanced filtering system** allowing users to search products by categories, types
- Designed **mobile-first responsive UI** with optimized layouts for desktop, tablet, and mobile devices
- Managed complex state for cart operations, product data, and user interactions using React hooks

Project: https://github.com/ALI-RAZA816/E-Commerce-Website-React-.git
Live Link:

Contact App

- Built a complete contact management system with full CRUD (Create, Read, Update, Delete) functionality using React functional components and hooks
- Implemented real-time search that instantly filters contacts as users type, improving data accessibility
- Designed **responsive UI** with modern CSS and organized code into reusable, maintainable components
- Managed application state efficiently using React's useState and useEffect hooks for optimal performance

Project: https://github.com/ALI-RAZA816/Contact-App.git
Live Link:

Myntra Clone

- Engineered a Myntra e-commerce clone using React.js with Redux Toolkit for efficient global state management
- Implemented product data fetching from a local server and displayed in a responsive product grid layout
- Developed shopping cart functionality with **add/remove items** and **real-time price calculations** (subtotal, tax, total)
- Created a responsive UI matching the original platform's design language and user experience
- Managed complex state flows for cart updates and product data using Redux Toolkit slices and reducers

Project: https://github.com/ALI-RAZA816/React-Web-Projects/tree/main/R-MyntraClone

EDUCATION

Graduation **Nov 2024 - August 2026**

Government College University Faisalabad

- Associate Degree Program in Computer Science

Intermediate **Sep 2022 - August 2023**

Punjab Groups of Colleges (Depalpur)

- Information and Computer Science

Matric **August 2021 - June 2022**

Government School Chorasta Mian Khan

- Matric Science

ADDITIONAL INFORMATION

- **Technical Skills:** React Developer
- **Languages:** English, Urdu, Punjabi
- **Version Control:** Git & Github
- **Learning:** PHP, Larvel & Tailwand CSS
